Click on each Cell to highlight then press Book to book more than one row.

Important Info: The system is based on first in first served and locks the row once a user presses the Make Booking button (see image on next page). For highly contested times, you may come up against a clash of times with another user. This occurs when you and another user select the same row. The other user manages to press the Make Booking button before you do which locks the row out for you to proceed any further. You'll then need to select another tee time that is available from the timesheet instead.

In this case; it is highly recommended that you login prior to selecting your booking time so that you do not need to enter in username/password details at the booking stage and risk losing your selected time to another user.

- After selecting your tee time, enter the amount of players against the Green fee type and enter in quantity values against any cart or club hire required. Press the Make a Booking button to proceed to payment page.
